

Five signs

Did you know? The most common signs of cancer in young people aged 15-25 years are unexplained and persistent:

- Pain
- Lump, bump or swelling
- Significant weight loss
- Fatigue and/or fever
- Changes in a mole

If you experience one or more of these symptoms, discuss them with your GP. Visit **youthcancer.com.au** for more information.

Youth Cancer Services are funded by the Australian Government and
State /Territory health departments
